To whom it may concern

**Re. M&P Contractors (Wales) Ltd**

M&P Contractors Wales Ltd., have worked on a couple of my recent projects with Morgan Sindall, both as a sub-contractor to our steelwork contractor at East Kent College and then directly at Katesgrove School in Reading carrying out a combined SFS / internal partitions & ceilings package.

On both occasions I have found their approach very professional & proactive.

I found them easy to deal with and both their technical knowledge and approach to health and safety was outstanding.

This was followed through onto site with a well trained Site Supervisor and highly skilled operatives.

They completed the contracts to a very high standard and were handed over defect free and on-time.

I have no hesitation in putting their name forward to price for any projects that I am working on and I would hope they are successful so I can work with them again.

Regards

John Azzopardi
