To Whom It May Concern

**Ref: Neil Huntley**

Neil has worked on our projects at RM Poole and RAC Bovington installing the external Metsec Walling System.

We have found him to be very conscientious and to have very good management skills and a hard worker.

Also he produces a good quality job to the agreed programme dates and in some cases even betters them.

Our Company would have no problems with employing Neil on our future projects.

Yours sincerely

Mike Hillier  
Project Manager
