TO WHOM IT MAY CONCERN

**Re: M & P Contractors Wales Ltd**

M & P Contractors Wales Ltd have recently completed the SFS framing works at the Bronglais Hospital Scheme which included the supply and installation of the framing and cement board.

I found M & P Contractors Wales Ltd to be extremely professional and pro-active during this design development stage, working with Kingspan to ensure that the quality and programme was achieved to the highest standard.

M & P Contractors Wales Ltd commitment to our Health and Safety Culture was driven by their senior management and further enforced by their site management and operatives with open and clear communication, planning and collaborative working

I would have no hesitation in working with M & P Contractors Wales Ltd Contractors in the future.
