**To Whom It May Concern**

Dear Sir's

**Re: M & P Contractors**

We employed M & P on a number of projects of varying values the latest being a small fit out of temporary office and welfare accommodation for our own use during the construction and refurbishment of an existing office within the centre of Bristol.

We have always found M & P to be competitive during tender stage with the ability to deliver a quality finish within programme.

M & P have a wealth of experience of their industry which can be drawn upon during the design process.

Personally I have always found M & P to be both respectful and honest when dealing with them and will look to employ them in the future.

Yours Faithfully

Paul Thompson  
Project Manager
