

31/05/2013

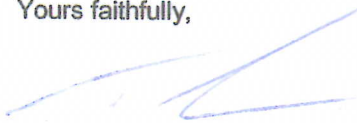

Dear Sir,

M and P contracting have been responsible for undertaking the installation of SFS framing and CP board sheathing at the East Kent College centre of technology and have been sub-contractor for TPS solutions Ltd.

Whilst on site the level of professionalism and safety management has been exceptionally good and the quality of work achieved has been to a high standard.

I would have no hesitation in working with M and P contractors again in the future.

Yours faithfully,

Trevor Davison
