To whom it may concern,

Re: RELATING TO M&P CONTRACTORS WALES Ltd

CARDIFF ROYAL INFIRMARY REFURBISHMENT AND REMODELLING PROJECT

We have recently successfully concluded the £30m refurbishment and remodelling of Cardiff Royal Infirmary where M&P Contractors Wales Ltd played a vital role in transforming the 100 year old Grade 2 listed building into a modern multi functional facility.

This is the second time i have had the privilege of working alongside M&P where they provided the partition and ceiling package working directly for Laing O'Rourke.

They have not disappointed by maintaining their proactive approach to what was a very demanding and challenging programme, their technical knowledge of the product and commercial awareness when dealing with interface detailing was key to the success of the project.

The works were completed on time, to an excellent quality standard, safely and with no commercial issues.

This is a merit to both the Directors and site management who remained proactive and dedicated through out the preconstruction to post completion stages.

Laing O'Rourke have no hesitation in offering more opportunities to M&P based on their continued proactive performance at Cardiff Royal Infirmary

Yours faithfully

Peter Sharpe
Project Leader
