To Whom It May Concern:

**Reference: M&P Contractors Wales Ltd**

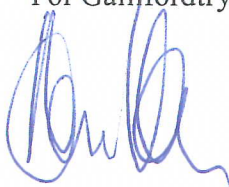

We have used M&P on three "Project SLAM" projects two of which have been Metsec only packages with the remainder being a combined Metsec and Drylining package.

The value of the metsec packages have been in the region of £70k to £140K, with the combined package to the value of £220k.

From conception to completion M&P have in our opinion always fulfilled the requirements of the contract programme, to the point where we have relied on them to better the programme by in some cases up to three weeks. They have always been able to adequately resource our projects with more than enough labour. Communication is excellent between us with most issues raised sorted over the phone, and acted upon immediately. The quality and organization of M&P works on our projects is excellent, their friendly non contractual approach to their work makes working with them a pleasure.

It is to this point that we will continue to use M&P on future projects and have no hesitation recommending them to Gallifordtry Group and other unconnected companies.

For Gallifordtry Interiors
