November 9<sup>th</sup> 1999

Our Re: td/dmp/0251

To, whomever it may concern.

We have used M & P CONTRACTING (Mark Huntley) services in Partitioning, Suspended Ceilings and Fire Protection on numerous projects but in particular on Kvaerner Chepstow Hospital between November 1998 and November 1999.

M & P supplied upto 30 men at one time on site to work on the above packages but also to help with the management of our Contract at Chepstow Hospital.

We have always found Mr. Huntley to be a first class Sub-Contractor and the men he supplied were reliable and trustworthy.

The quality of his work has always been of the utmost. This is borne out by the fact that the Main Contractors snagging list on Chepstow Hospital comprised of very minor items. This is of great significance, when the size of the project is taken into account.

We would have no hesitation in using Mr. Huntley again. We would like to point out, that in all his dealings with us he has been most helpful and considerate.

If you should require any further assistance please do not hesitate to contact the writer on 01443-675860.

Yours faithfully

D. M. Payne
