To whom it may concern

Re: M&P Contractors Wales Limited

We have employed M&P Contractors Wales Limited to install exterior Metsec framing on several of our Project SLAM sites.

During their time on site, M&P have shown vast experience to all detailing issues, producing an excellent standard of workmanship and more importantly always on programme. In most cases they better the programme dates due to their ability to call upon their in-house trained operatives, which appears to set them apart.

They always show a professional approach and we hope to work with them in future.

Yours faithfully

GALLIFORD TRY CONSTRUCTION SOUTH
