TO WHOM IT MAY CONCERN

Dear Sirs,

Re: New Bettws Comprehensive School, Newport.

M&P have just complete the envelop works of the New 1200 Pupil School being constructed by Leadbitter for Newport City Council.

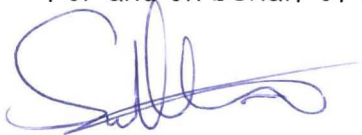

The work involved the design, supply and installation of Kingspan Structural Metal Stud Vapour Barrier and Rigid Insulation.

M&P were professional throughout their duration on site and completed on time with a good quality product.

Their package was a critical element of the Project which has a value close to £1 million pounds of this £25 million scheme.

Leadbitter would have no issues recommending this company and will be using M&P again on future projects; with either Kingspan or Metsec systems.

Yours faithfully,  
For and on behalf of Leadbitter

Simon Owen  
Project Director
