TO WHOM IT MAY CONCERN

M & P Contractors Wales Ltd have just successfully completed a project for us in Newport Wales, both in budget and ahead of original programme.

The project comprised the installation of a structural framing system to replace the inner skin of an outer leaf wall to a 2 storey building.

M & P approach a project with the utmost of professionalism. Their Method Statements, Risk Assessments and all other associated paperwork is of a very high standard . This follows on to the site with a very competent site team.

M & P are a very reliable and accommodating company whom we would have no hesitation in using on further projects for any aspect of metal studding whether it be internal or external.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'Paul Thompson', with a long horizontal flourish extending to the right.

Paul Thompson
Director
