To Whom It May Concern,

Working alongside M&P on the Computational Foundry Project has been a privilege.

Their professionalism, knowledge, quality of workmanship, and general attitude on site has been second to none.

This particular project has been very challenging and I am forever grateful for the buy-in from M&P. I'm sure without their efforts we would not be in the healthy position that we find ourselves in now.

In my opinion M&P set the bar to where all Supply Chain Partners should be aiming to achieve, regardless of discipline. It is even more reassuring that it's evident they are constantly seeking for continual improvement to raise this bar even higher.

All tiers of their business go about work the 'right way' whether they are labourers, tradesmen, supervisors or managers. They all have a 'Can do' attitude; they are all approachable and will go out of their way to help.

Finally, I'd just like to say that I look forward to working with them again in the future, and thank you for your efforts.

Kind Regards

Ben Rouge – Senior Building Manager
