Morning Kevin,

Good to speak to yesterday and I'm glad to hear things are still going well for M&P, reference below.

**Reference for M&P Contractors Wales Limited**

To whom it may concern.

I had the pleasure of working with M&P Contractors Wales Ltd from the day we both commenced on site at the new Swansea Arena back in September 2020, myself as the Site Manager for Buckingham Group Contracting Ltd (Main Contractor) and M&P as the Drylining, Internal Partitions & Suspended Ceiling Sub-Contractor, and after spending the next eighteen months working alongside each other, I can categorically state that they are the best Drylining company I have ever worked with.

The attitude of their Site Management Team is second to none, always wanting to help, always trying to drive the Programme, increasing resources when needed when areas are released and completing their works in a timely manner, so as not to cause delays to following trades. Their proactive approach and willingness to get the relative product manufacturers involved to sort out Design Issues made for a far smoother interface between trades, than would otherwise have been the case if they hadn't been so willing to help.

During the course of the contract, we had to endure COVID restrictions and a Global shortage of materials brought on by the pandemic, but at no time did M&P let this effect their work, stop them achieving required Programme dates or have "lack of material" issues as others were reporting, they kept pushing forward.

It was as I said, a pleasure working with them as a Management Team and also alongside their operatives on site who carried forward the same ethos and attitude of that of their Management Team.

I hope to have the opportunity of working alongside M&P many times again in the future.

Regards,

Adrian Riley
