

**Reference: M&P Dry Lining / External Facades**

This is a letter of recommendation of working with M&P on a multiply of projects within the Western and Wales Build division of Kier Construction.

M&P are performing well on the Swansea University 'Impact Project' and always promotes a 'can do attitude'

They have an excellent health and safety culture and a positive attitude on site at all times

Works are progressing to programme and quality with adequate supervision in order to achieve these key performance objectives

I would certainly use M&P on future schemes

Please contact me if you want or need additional information.

Yours sincerely,

Howard Monsen  
Senior Project Manager  
Kier Construction
